ALTOVECTOR

Better Systems. Less Disruption.

ENGINEERING TRUST. DELIVERING IMPACT.

Austin-based. Woman-owned. Principal-led.

We help organizations assess, modernize, and implement technology—from business needs and solution design through integration, testing, training, and launch.

Our lean approach combines decades of disciplined delivery and established practices with a clear focus on business outcomes. We prioritize the work that matters most, eliminate unnecessary complexity, and deliver practical, lasting solutions that reduce risk and maximize the value of your technology investments.

WHAT WE DELIVER

ASSESS & PLAN

Business process, technology strategy, risk and gap analysis, vendor evaluation, data and AI readiness, and actionable roadmaps.

MODERNIZE & CONNECT

Cloud and SaaS modernization, APIs and integrations, IAM/SSO, data migration, security, and governance.

IMPLEMENT & DELIVER

Program management, QA/UAT, analytics, knowledge transfer, workflow automation and post-launch support.

PROCUREMENT & TEAMING

CMBL registered | UEI: U7FRPJM7HVY1 | Established DIR prime teaming

Government purchase cards and credit cards accepted.

LEADERSHIP EXPERIENCE

Federal Cloud Modernization

10 servers and 8 .NET applications migrated to Azure IaaS.

Statewide Public-Sector Systems

Technical delivery of Louisiana Department of Education systems serving 120 districts and approximately 1,500 schools.

Enterprise SaaS Implementation

12+ SaaS implementations spanning process improvement, vendor selection, integrations, IAM/SSO, testing, and migration.

Organizational Strategy & Growth

Product & Engineering transformation and delivery for a 300+ person organization, supporting 40% enterprise revenue growth.
